“Which Leadership Style Do More Narcissistic Subordinates Prefer in Supervisors?”**

Note: Text enclosed within square brackets was not shown to participants.

Study 1

[Informed Consent]

General research guidelines request that every participant explicitly agrees to participate before taking part in an empirical investigation.

'I hereby confirm that I am 18 years or older, I have fully read and agree to the informed consent to research provided by the requester on Amazon Mechanical Turk, and I voluntarily agree to participate in this study.'

Yes No

[Filter Question]

I confirm to read the following instructions carefully. Therefore, I click "not at all pleasing" at the very left in order to continue.

not at all pleasing very pleasing

[Early End if Response to Filter Question was Incorrect]

Unfortunately, your last answer indicates that you did not carefully read the instructions. As we need to ensure high data quality, you cannot complete the questionnaire. We ask for your understanding. Note: Returning a HIT has no disadvantages for you as your return rate is not shown to requesters.

[Personality Questionnaires]

In the first part of the questionnaire, we would like to ask you some questions regarding yourself. We are interested in your personal feelings and beliefs. Your anonymity will be preserved and is guaranteed.

There are no right or wrong answers. Please answer spontaneously.

[Participants completed the following questionnaires in random order. For copyright reasons, we list only the names of the questionnaires along with their references.]

- Narcissistic Admiration and Rivalry Questionnaire (Back et al., 2013)
- Narcissistic Personality Inventory (Raskin & Terry, 1988)
- Impression Management subscale of the Balanced Inventory of Desirable Responding Short Form (Hart et al., 2015)

[Instruction to Imagine Oneself Being in a Subordinate Position]

We all find ourselves sometimes in a position of a subordinate. **Please imagine now yourself as a subordinate.** Take a few moments to think about it and to answer the following two questions.

What does it mean to be a subordinate?

How does it feel to be a subordinate?

[Attention Check Item]

In the preceding task, we asked you to imagine yourself as...

...a leader. ...a subordinate. ...an elephant.

[Early End if Response to Attention Check Item was Incorrect]

We regret to inform you that you do not meet the criteria for completing this study. Your answer to the question on the last page indicates you did not carefully read the instructions. As we need to ensure high data quality, you cannot complete the questionnaire. We ask for your understanding.

[Introduction to Measures of Leadership Preferences]

The following pages are about your leadership preferences. Please keep in mind that we are interested in what you think from the perspective of a subordinate. Specifically, we are interested in the kind of leadership behaviors that you would like to see in a supervisor to whom you are subordinate. (Please note that we are only interested in the behaviors you would want a supervisor to show, not in the actual behaviors a supervisor might show.)

[Introduction to Leadership Descriptions]

Next, you will be presented with two descriptions of leadership styles. Please indicate how much you, as a subordinate, would want your supervisor to show leadership behaviors that resemble the respective leadership styles.

[Participants viewed descriptions of democratic and autocratic leadership in counterbalanced order.]

[Description of Democratic Leadership]**Leadership Style Description 1:**

A supervisor using this leadership style is concerned about the subordinates' needs. If there are decisions to be made, he/she asks the subordinates for their opinion and encourages them to participate in the decision-making process. He/she awards them freedom to determine their own policies, procedures, rules, and goals, and gives them perspective by explaining in advance the steps toward goal attainment. Overall, the supervisor lets the subordinates initiate most actions and interactions within the group.

As a subordinate, how much would you want your supervisor to show leadership behaviors that resemble the described leadership style? (1= *not at all*; 6 = *very much*)

[Description of Autocratic Leadership]**Leadership Style Description 2:**

A supervisor using this leadership style is mainly concerned about getting the job done. If there are decisions to be made, he/she makes them alone and does not encourage the subordinates to participate in the decision-making process. He/she determines prescribed policies, procedures, rules, and goals, and dictates method and activity steps, one at a time, so that future steps are uncertain to a large degree. Overall, the supervisor directs most actions and interactions within the group.

As a subordinate, how much would you want your supervisor to show leadership behaviors that resemble the described leadership style? (1= *not at all*; 6 = *very much*)

[Bipolar Leadership Measure]

The two leadership styles described above are also referred to as “democratic” and “autocratic”.

All in all, would you want your supervisor to show leadership behaviors that correspond more to an autocratic leadership style or to a democratic leadership style? (1= *autocratic*; 11 = *democratic*)

[Introduction to Leadership Behaviors]

Next, you will be presented with various leadership behaviors. Please indicate how frequently you, as a subordinate, would want your supervisor to show the respective leadership behavior.

[Leadership Behaviors]

As a subordinate, how frequently would you want your supervisor to show the following leadership behaviors? (1 = *very seldom, never*, 6 = *very often, always*)

[We adopted 13 items from the Leader Behavior Description Questionnaire XII (LBDQ XII; The Ohio State Leadership Studies, 1962) and 3 items from the Leader Behavior Description Questionnaire (LBDQ; Halpin, 1957). Additionally, we used 4 self-generated items. For copyright reasons, we do not cite the wording of the adopted items. Instead, we list their item number in the original questionnaire.]

The supervisor should...

- ... [LBDQ XII item number 7]
- ... [LBDQ item number 7]
- ... [LBDQ XII item number 15]
- ... [LBDQ item number 11]
- ... [LBDQ XII item number 27]

- ... [LBDQ XII item number 75]

... [LBDQ XII item number 64]
...include the group members in the decision-making processes.
... [LBDQ XII item number 84]
... [LBDQ XII item number 85]
... [LBDQ XII item number 97]
... [LBDQ XII item number 95]

...lead in a democratic manner.

A supervisor using this leadership style is mainly concerned about getting the job done. If there are decisions to be made, he/she makes them alone and does not encourage the subordinates to participate in the decision-making process. He/she determines prescribed policies, procedures, rules, and goals, and dictates method and activity steps, one at a time, so that future steps are uncertain to a large degree. Overall, the supervisor directs most actions and interactions within the group.

[Early End if Response to Filter Question was Incorrect]

Unfortunately, your last answer indicates that you did not carefully read the instructions. As we need to ensure high data quality, you cannot complete the questionnaire. We ask for your understanding. Note: Returning a HIT has no disadvantages for you as your return rate is not shown to requesters.

[Narcissism Questionnaires]

In the first part of the study, we would like to ask you some questions regarding yourself. We are interested in your personal feelings and beliefs. Your anonymity will be preserved and is guaranteed.

[Participants completed the two questionnaires in the order as shown. For copyright reasons, we list only the names of the questionnaires along with their references.]

- Narcissistic Personality Inventory (Raskin & Terry, 1988)
- Narcissistic Admiration and Rivalry Questionnaire (Back et al., 2013)

[Subordinates' Hypothetical Leadership Style]

[We presented the autocratic leadership description and behaviors en bloc and did so as well for the democratic leadership description and behaviors. The order of the autocratic and the democratic block was counterbalanced.]

[Introduction]

For the second part of the study, we would like you to **imagine you were in a leadership position**.

You will be presented with questionnaires regarding your (hypothetical) leadership style and specific leadership behaviors. Please read the descriptions carefully to evaluate subsequently **how much the described leadership styles would match your personal leadership style** and **how often you would show the specific leadership behaviors if you were in a leadership position**.

[Autocratic Leadership Description]

If you were in a leadership position...

Leadership style 1:

A leader using this leadership style is mainly concerned about getting the job done. If there are decisions to be made, he/she makes them alone and discourages the employees to participate in the decision-making process. He/she determines prescribed policies, procedures, rules, and goals, and dictates method and activity steps, one at a time, so that future steps are uncertain to a large degree. Overall, the leader directs most actions and interactions within the group.

How much would the described leadership style resemble **your leadership behavior**?
(1 = *not at all*; 7 = *very much*)

[Autocratic Leadership Behaviors]

How frequently would you engage in the behavior described by the item if you were in a leadership position? (1 = *never*; 2 = *seldom*; 3 = *occasionally*; 4 = *often*; 5 = *always*)

[As in Studies 1 and 2a, we adopted 5 items from the Leader Behavior Description Questionnaire XII (LBDQ XII; The Ohio State Leadership Studies, 1962) and 3 items from the Leader Behavior Description Questionnaire (LBDQ; Halpin, 1957), and we used 2 self-generated items. For copyright reasons, we do not cite the wording of the adopted items. Instead, we list their item number in the original questionnaire.]

As a leader, I would...

- ... [LBDQ item number 7]
- ... [LBDQ item number 11]
- ... [LBDQ item number 9]
- ... [LBDQ XII item number 44]
- ...make decisions without consulting the group members.
- ... [LBDQ XII item number 64]
- ... [LBDQ XII item number 84]
- ... [LBDQ XII item number 97]
- ... [LBDQ XII item number 54]
- ...lead in an autocratic manner.

[Democratic Leadership Description]

If you were in a leadership position...

Leadership style 2:

A leader using this leadership style is concerned about the employees' needs. If there are decisions to be made, he/she asks the employees for their opinion and encourages them to participate in the decision-making process. He/she awards them freedom to determine their own policies, procedures, rules, and goals, and gives them perspective by explaining in advance the steps toward goal attainment. Overall, the leader lets the employees initiate most actions and interactions within the group.

How much would the described leadership style resemble **your leadership behavior?**
(1 = *not at all*; 7 = *very much*)

[Democratic Leadership Behaviors]

How frequently would you engage in the behavior described by the item if you were in a leadership position? (1 = *never*; 2 = *seldom*; 3 = *occasionally*; 4 = *often*; 5 = *always*)

[As in Studies 1 and 2a, we adopted 8 items from the Leader Behavior Description Questionnaire XII (LBDQ XII; The Ohio State Leadership Studies, 1962), and we used 2 self-generated items. For copyright reasons, we do not cite the wording of the adopted items. Instead, we list their item number in the original questionnaire.]

As a leader, I would...

... [LBDQ XII item number 7]

... [LBDQ XII item number 15]

... [LBDQ XII item number 27]

... [LBDQ XII item number 35]

... [LBDQ XII item number 67]

... [LBDQ XII item number 75]

...include the group members in the decision-making processes.

... [LBDQ XII item number 85]

... [LBDQ XII item number 95]

...lead in a democratic manner.

[Supervisor's Leadership Style]

[Participants were randomly assigned to the democratic or autocratic leader profile of a fictitious supervisor. We presented the autocratic leadership description and behaviors en bloc and did so as well for the democratic leadership description and behaviors. The order of the autocratic and the democratic block was the same as for subordinate's hypothetical leadership style and, thus, counterbalanced.]

[Introduction]

For the third part of the study, we would like you to **imagine a male person in a leadership position who was your supervisor.**

We will show you the answers of this person to the same questions you just answered regarding his leadership style and his specific leadership behaviors. Please read the answers carefully and subsequently evaluate this person **given that he were your supervisor.**

[Autocratic Leader Profile]
